PROFESSIONAL SUMMARY

Detail-oriented Quality Assurance professional with 7+ months of experience in manual testing of mobile applications. Proven expertise in test case design, defect tracking, regression testing, and Agile/Scrum methodologies. Experienced with JIRA, Postman, TestRail, and BrowserStack. Committed to delivering high-quality software solutions through comprehensive test coverage, root cause analysis, and continuous process improvement.

CORE COMPETENCIES

Testing: Manual & Functional, Mobile (Android/iOS), Regression, Smoke, Sanity, Integration, UAT, Exploratory

Tools: JIRA, Postman, TestRail, BrowserStack

Programming: Python, SQL, HTML/CSS, JavaScript

Platforms: Android, iOS, Web Applications, REST APIs

Methodologies: Agile/Scrum, Waterfall, Test-Driven Development (TDD)

Other: STLC & SDLC, CI/CD Integration, Root Cause Analysis

PROFESSIONAL EXPERIENCE

Junior Quality Analyst | Rewise Analytics and Technologies Pvt. Ltd.

May 2025 – Present

- Executed comprehensive manual testing for the WingmanX mobile application (Android & iOS), achieving 100% test coverage across all critical user flows and features.
- Designed and maintained detailed test cases, test scenarios, and test data for functional, regression, and smoke testing phases.
- Identified, documented, and tracked 50+ defects using JIRA, collaborating with the development team to ensure timely resolution and root cause analysis.
- Performed thorough verification and validation testing for each build release, ensuring quality standards were met before deployment to Google Play Store and Apple App Store.
- Participated in daily stand-ups, sprint planning, and retrospectives following Agile/Scrum methodology.
- Conducted cross-platform and cross-device compatibility testing to ensure a consistent user experience across multiple devices and OS versions.

INTERNSHIP EXPERIENCE

Software Testing Intern | Rewise Analytics and Technologies Pvt. Ltd., Pune

May 2025 – Sept 2025

- Gained hands-on experience in mobile application testing for WingmanX, learning QA processes and industry best practices.
- Assisted the senior QA team in test case creation, test execution, and defect reporting.
- Developed a foundational understanding of the Software Testing Life Cycle (STLC) and defect management lifecycle.

R&D; Software Development Intern | Schneider Electric India Pvt. Ltd., Mumbai

July 2024 – August 2024

- Contributed to R&D; projects focused on industrial automation software development.
- Gained exposure to enterprise-level Software Development Life Cycle (SDLC) and quality assurance processes.
- Collaborated with cross-functional teams to understand real-world project requirements and implementation strategies.

EDUCATION

Bachelor of Technology (B.Tech) | Baderia Global Institute of Engineering and Management, Jabalpur

Graduated: May 2025

Senior Secondary Education (12th) | Central Board of Secondary Education (CBSE)

Completed: May 2021

PROJECTS

PNG Please — Web Tool

- Built a browser-based utility website that allows users to find and download PNG images that are otherwise difficult to locate — all directly from the browser with no backend required.
- Leveraged AI-assisted development and prompt engineering to scaffold the frontend logic, image-fetch pipeline, and UI components.
- Technologies: HTML, CSS, JavaScript.

Personal Portfolio Website — AI-Assisted Frontend

- Designed and deployed a personal portfolio website to showcase projects, skills, and professional experience, serving as a live digital resume.
- Used AI-assisted prompt engineering to accelerate UI design decisions, layout structuring, and responsive styling.
- Technologies: HTML, CSS, JavaScript — deployed via GitHub Pages.

WingmanX Chatbot — AI-Assisted Chatbot Interface

- Developed an interactive chatbot interface for the WingmanX platform, simulating real-time conversational flows using a mock API integration.
- Applied prompt engineering to design conversation logic, response flow, and UI behavior — bridging QA knowledge with frontend development.
- Technologies: HTML, CSS, JavaScript.

Dropload — Web Social Media Downloader

- Built and deployed a full-stack web application enabling users to download media content from popular social media platforms via a clean browser interface.
- Deployed on Railway. Technologies: Python/Node.js backend, HTML/CSS/JavaScript frontend.

CustomQuest — First Deployed Product | customquest.in

- Independently conceptualized, built, and launched a live web product on a custom domain — marking the first end-to-end product ownership experience.
- Applied prompt engineering and AI-assisted coding workflows across design, logic, and deployment stages.
